The creditors of the Donahue estate, who sought to have so much of the stock of the San Francisco and North Pacific Railway Company sold as would satisfy their claims, have met with disappointment. Judge Angellotti of Marin county, before whom suit was brought, has denied the petition of the creditors and the road will continue to be run under the old management to the relief of its many employees.

The City Trustees held a special meeting on Friday of last week, at which were present Trustees Poppe, Wegner, Weyl and Bulotti. The object of the meeting was to consider and take action in the matter of curbing the dueling property on Napa street. The Street Committee were instructed to notify the owners of the property to lay the curb on a line with the curb already established and constructed, and in case of refusal the City Marshal was ordered to remove the same.

A branch of the Merchants' Retail Commercial Agency of Chicago, to be known as the "Sonoma Valley Branch," was organized in this place on the 15th inst. with eight members. The following were elected officers for the first year: Robert A. Poppe, President; Ralph E. Perkins, Secretary; F. Clewe, Treasurer. Executive Committee—Robert A. Poppe, Ralph E. Perkins, Geo. W. Barry, Julius Fochetti. The object of the agency is to circumvent dead beats, of whom there are quite a number in this valley.

RESULTED FATALLY.

Charles Crofoot Dies from the Kick of a Horse.

Chas. Crofoot of Glen Ellen, who was kicked by a vicious stallion about two weeks ago, died early Tuesday morning from the effects of his injury. He was kicked in the back and loin and hurt internally. The injured man for a time gave hopes of recovery and on Monday last was able to have fresh air out of doors. His nervous system, however, failed to recover its tone, and on Monday night a collapse set in and he died the following morning, as narrated above. Charles Crofoot was a native of New York and 38 years of age. He was a genial, whole-souled fellow and his sad death has prostrated his family and shocked his friends.

GATIE IMPROVING.

Hemorrhage of the Nose Stopped. He Will Now Recover.

Otto Gatie, the clerk in the Union Hotel, who was struck on the nose three weeks ago by Albert Estes, which caused a hemorrhage for a time that threatened his life, is now considered out of danger. This being the case, lawyer Harrison, attorney for Estes, appeared before Justice Cheney last Monday and asked that his client's bail be reduced from \$2000 to \$500. The request was granted and H. Appleton and Mrs. Estes qualified in the above amount and young Estes, who had been confined in the Santa Rosa jail for eighteen days awaiting the result of Gatie's injuries, was released the following Tuesday. His examination will take place as soon as the sick man is able to appear in court and give his testimony.

Monday last Gatie was brought to his home from San Francisco, where he had been an inmate of the German Hospital for eight or ten days. He is quite pale, emaciated and feeble, but is daily improving.

The Druids.

Friday evening of last week was a gala night in Sonoma Grove of the United Ancient Order of Druids, the occasion being a fraternal visit of members of the Grand Grove of California, viz: G. H. Buck, Noble Grand Arch; R. L. Wagner, Past Noble Grand Arch; J. H. Kuehnert, Grand Secretary; F. Cavanaugh, Grand Treasurer and J. E. Fugari, Grand Trustee.

Sonoma Grove boasts about 90 members, and about forty assembled in Masonic Temple under the genial presidency of L. Quartaroli. Other officers of the Grove present were R. Magenti, A. Bulotti, B. Baccala, F. Pezzaglia. These gentlemen report that Sonoma lodge is in a sound flourishing condition.

The officials of the Grand Lodge were accorded a cordial reception, and the proper business of the evening concluded, all the brothers repaired to Union Hotel to enjoy a feast of reason and a flow of soul, and a flow too of "liquido and generoso"—in other words, "wine that maketh glad the heart of man."

The dining hall tablesparkled with things pleasant to the eye and good for food, to which the company did ample justice. The cloth being removed a programme of speech and song was extemporized. Fugari won all hearts by his wit and bon homie. Advocate Cavanaugh, like many natives of Bella Italia, is "hewen out of the rock of harmony" and rendered with exquisite feeling, several melodies in Italian and Spanish. There was some fine choral singing in which Signors C. Filippini and G. Deberdini, made their voices heard in effective unison.

The Swiss national anthem was thundered out with great gusto from a score of patriotic throats. The concord and cadences of sweet sound were followed by an outburst of oratory. Mr. Buck, master of ceremonies, passed a glowing eulogy upon Druidism. Secretary of Lodge 44, South San Francisco, addressed the audience in the language of la belle France. Dr. Vance, a beginner in Italian, uttered a few words in that sonorous tongue and was succeeded by mine host of the Swiss Hotel in a felicitous Italian speech.

Merriment continued until past midnight, when the brothers dispersed amidst vows of eternal friendship.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

No more handsome present can be given than a fine life size crayon picture. Get Henry Baron to do one and have it for a Christmas present the coming holidays.

DEATH OF E. D. MOORE.

Expires from an Attack of Glanders Communicated from His Family Carriage Horse.

The announcement of the death of E. D. Moore in Santa Cruz, last Monday morning, was a painful surprise to his many friends in this valley, as it was less than a month ago that he left here for his new home in Santa Cruz in perfect health. The cause of his death was glanders, which had been communicated to him by his family carriage horse, which conveyed himself and wife overland to Santa Cruz. The disease was contracted by both man and horse while on their journey which lasted several days. Dick Moore, as he was familiarly called, had resided in Sonoma for twenty years, and during that time he was engaged in the various occupations of stage driving, heavy stable and hotel keeping.

He was a member of Temple Lodge, No. 14, K. and A. M. of this place, under whose auspices the funeral would have been held in Sonoma, but the contagious nature of the disease which caused his death, compelled the Southern Pacific Company to refuse to transport the remains over their road, and he was buried in Santa Cruz the day following his death. Mr. Moore leaves a widow and a host of friends to mourn his sudden taking off. He was a native of Pennsylvania and aged 60 years.

ANOTHER GIFT.

Mrs. Robert C. Johnson of this Place Devotes a Large Portion of Her Fortune to Founding a Free Hospital.

Mrs. Robt. C. Johnson, one of the most noble and charitable women in this State, who for the past seven years has resided at Buena Vista Park, her magnificent country seat one mile east of Sonoma, will devote a large portion of her fortune to founding and maintaining a free hospital for the poor. The new institution will be called "Mary's Help" in honor of the Virgin Mary, Mrs. Johnson being a devout member of the Catholic Church. The site of the proposed hospital consists of two valuable blocks of land beyond the Mission in San Francisco. The cottage plan will be carried out, as the benevolent lady believes that to be the best for hospital purposes. The erection of the buildings will commence as soon as she disposes of her vast real estate interests in San Francisco. Mrs. Johnson will also provide a maintenance fund from her private means, and expects to keep up the institution without the aid of others.

Ever since the death of her beloved husband in Paris a few years ago, which was followed soon after by the demise of Rosalind Johnson, her only child (by adoption), a beautiful and charitable young lady of seventeen years, who died of consumption at Buena Vista Park about a year ago, Mrs. Johnson has been contemplating the disposal of her fortune for benevolent purposes, with the result that she has given away thousands of dollars already in private charity, besides founding a college for the Education of Priests, near Menlo Park, San Mateo county, and now comes this last noble act which has for its purpose a home for the sick and bedridden poor.

A Fishing Adventure.

Captivated by the advertisement of a boarding house keeper in Sullivan county, which announced "best fishing in the state," I went thither to pass my vacation, well equipped with fishing accoutrements. Luck Walton propensities and anticipations. I even took along my dog Fish, thinking he might help me to catch catfish.

The second day after my arrival I went with my apparatus and dog to the wonderful stream that was teeming with fish. Sure enough there was plenty of fish, but I found that they were rather slow, that the average summer gift to form an acquaintance, and seemed to look upon me with distrust. They would swim all around my boat, take an occasional side glance at it and then dart away. I did not get a bite that day.

On the following day I borrowed a farmer's hat and a cornucopia, and returned to the stream feeling confident that the fish would recognize an old acquaintance, for it is an unaccountable fact that the natives can catch fish by the score.

Still the fish seemed to know that I was a city chap and would not bite. After tempting them for four hours in vain I called my dog Fish and started to return home, not having seen any catfish, as they call the bullheads there. Just then the boarding house keeper happened by. He heard me calling my dog.

"Why do you call your dog Fish?" he asked.

"Because he won't bite," said I. And my host slunk away and I did not see him for a week.—New York Herald.

ARSENIC AND AMMONIA.

Remarkable Contrast in the Effect of Two Poisons on the Complexion.

The slow absorption of many poisons changes in some more or less modified form the complexion, but arsenic and ammonia show their effect about as quickly as any.

The popular belief that arsenic clears the complexion has led many silly women to kill themselves with it in small, continued doses.

It produces a waxy, ivory-like appearance of the skin during a certain stage of the poisoning, but its terrible after effects have become too well known to make it of common use as a cosmetic.

The effects of ammonia upon the complexion are directly the opposite to that of arsenic.

The first symptom of ammonia poisoning which appears among those who work in ammonia factories is a discoloration of the skin of the nose and forehead.

This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance. With people who take ammonia into their systems in smaller doses, as with their water or food, these striking symptoms do not appear so soon.

The only effect of the poison that is visible for a time is a general unwholesomeness and sallowness of the complexion.

Many people are absorbing ammonia poison without knowing it. The use of ammonia in the manufacture of goods has greatly increased of late, and it is unquestionably used as an adulterant in certain food preparations. Official analysis have plainly shown its use even in such cheap articles of everyday consumption as baking powders.

The continued absorption of ammonia in even minute quantities as an adulterant in food is injurious not merely from its effect upon the complexion, but because it destroys the coating of the stomach and causes dyspepsia and kindred evils.

Professor Long of Chicago is authority for the statement that, if to fifty million parts of water there is one part of ammonia the water is dangerous.

THE Exposition D'etery h s called upon the Comptroller of the City of Chicago to sell \$1,000,000 of bonds which the city voted in aid of the Exposition. The proceeds, which it is desired shall be realized within ninety days, is to be applied mainly to paying the enormous expenses of the construction of the buildings.

THE magnitude of the building operations now going on at Jackson Park can be surmised from the fact that an average of from thirty-five to forty car loads of construction material arrives daily. The exposition buildings are rising with wonderful rapidity.

Bees as Burglars.

It appears that the monarchies of bees, well governed as they seem to be, are afflicted, nevertheless, by organized criminal classes—sneak thieves and highway robbers. Some of these robber bees go in strong bands to pillage, and are able to storm and sack a hive. After the slaughter they carry all the provisions home. Some colonies of bees never work; they live entirely by robbery and murder.

There are also thieves who creep in perceived into strange hives to steal honey. If successful they return armed with hordes of burglar bees, break open the honey safes and carry away the contents. But the most curious fact is that these bees can be artificially produced, according to B. B. B. by feeding the larvae upon honey mixed with brandy.—London Tit-Bits.

SONOMA INDEX - TRIBUNE.

SATURDAY, OCTOBER 24, 1890.

STRANGERS YET.

Romantic Meeting of a Timid Chicago Girl with a Voluptuous Californian.
I never pass Carroll avenue but I think of the pretty little story told to a group of friends one evening by one of our charming south side matrons. I was a country school ma'am in Vermont, receiving a salary of \$25 a month, when I made up my mind to come to Chicago and learn stenography. I had a sister married and living in a suburb of the city. She promised to help me all she could, and I remained with her until I had finished studying and was ready for a position.

Having obtained the position I discovered that my limited income would not allow me to pay car fare to such a distance as my sister lived. As she and her husband were poor it was decided that I should look for a boarding place on the west side. I searched the papers diligently and found the desired haven on Carroll avenue.

At first I found it very comfortable and easy, and enjoyed coming home after a long day's work and setting myself to sewing or reading. But as the days grew shorter, and the nights set in earlier, I felt myself becoming afraid to walk the two blocks that lay between the street car corner and my room, and this fear was not diminished any after a man had stopped me one evening and I had rushed into the house frightened and breathless from running. It may be very silly to one who has never been afraid, but I suffered cruelly as the car neared my corner, and several nights I could not find the courage to get off, and remained on the car, riding several blocks past, and of course only prolonged the distance of the walk.

One fearful dark and stormy evening the car was literally packed, and I stood holding on to a strap in the extreme front, when the loneliness of my position, my timidity and thoughts of an employer out of humor all day completely overcame me and I began to cry.

It seemed as if I could not leave the car and step into the darkness and storm. Presently I felt a hand touch me, and a voice said:
"What is the matter?"
"I am afraid to go home," I said. I was 19 years old, but I felt like a baby.

"Where do you get off?" asked the voice.
"At St. John's place," I replied, and just then the conductor called out the street, and I pushed my way to the rear platform and stepped off. As I did so the young man who had questioned me stepped off also, and said:
"I live up this way, and, if you will allow me, I shall see you home."

And all that winter, except the few nights when he did not chance to be on my car, for which I think he must have watched, he saw me home.

I never learned his name or where he lived, nor do I think he knew my name. He never stopped at the door to talk, nor presumed upon his kindness in any way, and when the long days came again he disappeared entirely, and I, soon after leaving the west side, have never seen or heard of him since.

I often think of the incident, though, and as I grow older it shows up to me in a very beautiful light, as compared with so many darker colors that go to make up the annals of evening life in a large city.—Chicago Letter.

Barber's Wisdom.

Barbers are not partial to seeing ladies coming into the shop to get their hair cut, no matter how pretty the dear creatures look after having their hair cut, they never look as well as they did before, and their first look in the glass makes the face appear to them, and they invariably blame the barber for it—claim it was not cut as they directed. It is a fact that about nine out of ten bald headed men are all the time looking for something to make the hair grow, but you never heard of a barber investing a cent for that purpose, and another thing that is just a notion and just as senseless as to suppose that the hair can be restored to a bald head without the use of a wig, and that is that bay rum is beneficial to the face. If you want a good face dressing after shaving use hot water. Nothing else is as good.—Interview in Lincoln Journal.

Jewelers Never Get Rich.

"Jewelers never get rich," said a Chicago jeweler. "If we could secure only 10 per cent. of the profits which many people suppose we get we would make more money than we do now. There never has been but one rich jeweler in America. Tiffany, of New York, is a rich man, and he is the only exception. And he made most of his money in the stationery business. There are many rich men in almost any other line of business—rich dry goods merchants, rich hotel men, rich grocers, rich hardware dealers. But jewelers, who are quite generally believed to be wealthy as a class, are rarely outside of the well to do circle, financially speaking."—Chicago Mail.

A New Klud.

A Nevada paper wants convicted murderers dropped into the shaft of a mine in that state which is 896 feet deep. It says that a person falling will lose all consciousness after descending 400 feet, and the death will be entirely painless and without any chance of bungling as on a gallows.—Detroit Free Press.

"August Flower"

Mr. Lorenzo F. Sleeper is very well known to the citizens of Appleton, Me., and neighborhood. He says: "Eight years ago I was taken 'sick,' and suffered as no one but a 'dyspeptic' can. I then began taking August Flower. At that time 'I was a great sufferer. Every thing I ate distressed me so that I 'had to throw it up. Then in a few moments that horrid distress 'would come on and I would have 'to eat and suffer 'again. I took a 'little of your medicine, and felt much 'better, and after 'taking a little more 'August Flower my 'Dyspepsia disappeared, and since that time I 'have never had the first sign of it. 'I can eat anything without the 'least fear of distress. I wish all 'that are afflicted with that terrible 'disease or the troubles caused by 'it would try August Flower, as I 'am satisfied there is no medicine 'equal to it.'"

THE COWBOY KNOWS!

Trying to hold a drove of cattle together in a despatching pen means an amount of exposure which few can withstand without serious results. If sickness does not follow, it will be found that such hardship usually brings on rheumatism, neuralgia, and other ailments. At such times a "Fish Brand Slicker" is worth its weight in gold, and is invaluable to any one exposed to stormy weather. For all such uses, you want a "Pommes" Slicker, which keeps the entire saddle, ponies, and cattle dry, and keeps the rider from getting wet. And, besides keeping him dry, it keeps him warm. Every rider has his one. Why shouldn't you? Beware of worthless imitations! Every genuine "Pommes" Slicker has the "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

THE BRAVEST 500 OF '61.

A Wonderful Book made from the records of the War Department. COMPILED BY F. T. BROWN, GEN. T. F. BROWN, GEN.

Of the 577,951 men enlisted in the Union Army and Navy, 1861-1865, a little less than 500 were especially recognized by the War Dept. as coming under the Act of Congress, July 19, 1862, for distinguished bravery, which gave them the United States Medal of Honor.

Many of the stories, told by the heroes themselves, of how they won the high distinction, are extremely interesting. That the records of these deeds are almost unknown to their countrymen, and in the homes of their own people, seems astonishing. This book must find a wide sale, for it is full of incidents that will interest every old soldier in the land, and our boys will glory in it. It is an excellent volume of over 200 pages, with nearly 100 excellent illustrations, made specially for the work. It reads of the time and deserves a place in the library of all who would not altogether forget the glorious past.
